FROM MERRY . . .

I'm sure those of you who attended our Scholarship Luncheon are still talking about this year's recipients. It was such a pleasure to meet their families, guidance counselors, and/or agriculture teachers, and I am impressed by so many things.

The students are incredible young people who have had unimaginable obstacles to overcome; are very active in a variety of sports, churches and other activities; and are still able to maintain a high GPA. The students all have at least one adult who has played a significant role in their lives, not always a family member.

The saying "It takes a village," is true. And, we members should all be proud of the work we do throughout the year, as we play a part in helping our students continue their education! Because of your hard work, we were able to award 5 scholarships to high school seniors and 5 scholarships to students continuing their college education. Lastly, it is impressive that all ten students and their families took time out of their busy schedules to join us for individual award presentations and a wonderful brunch hosted by First National Bank of TN. Our Annual Scholarship Luncheon provided all of us an opportunity to maintain a connection to our "new" community!
